SUBJECT: Monthly Flat Grant Increase in GA-TA

Effective December 1, 2010, the City of Champaign Township's General Assistance-Transitional Assistance Office will increase the monthly flat grant amount from \$212.00 per month to \$225.00 per month.

We at the Township have worked diligently over the past year to reduce cost in order for this increase to improve our client's standard of living.

We are sympathetic to the constraints of the rising rate of inflation and the cost of goods and services. We hope this increase will help them in their daily lives.
